

# N.Y. STATE PRISONS ARE KILLING INMATES WITH HIV/AIDS.

People in state custody are denied adequate access to HIV meds!  
Prisoners aren't ALLOWED to use condoms! Inmates can't get a Hep C test!

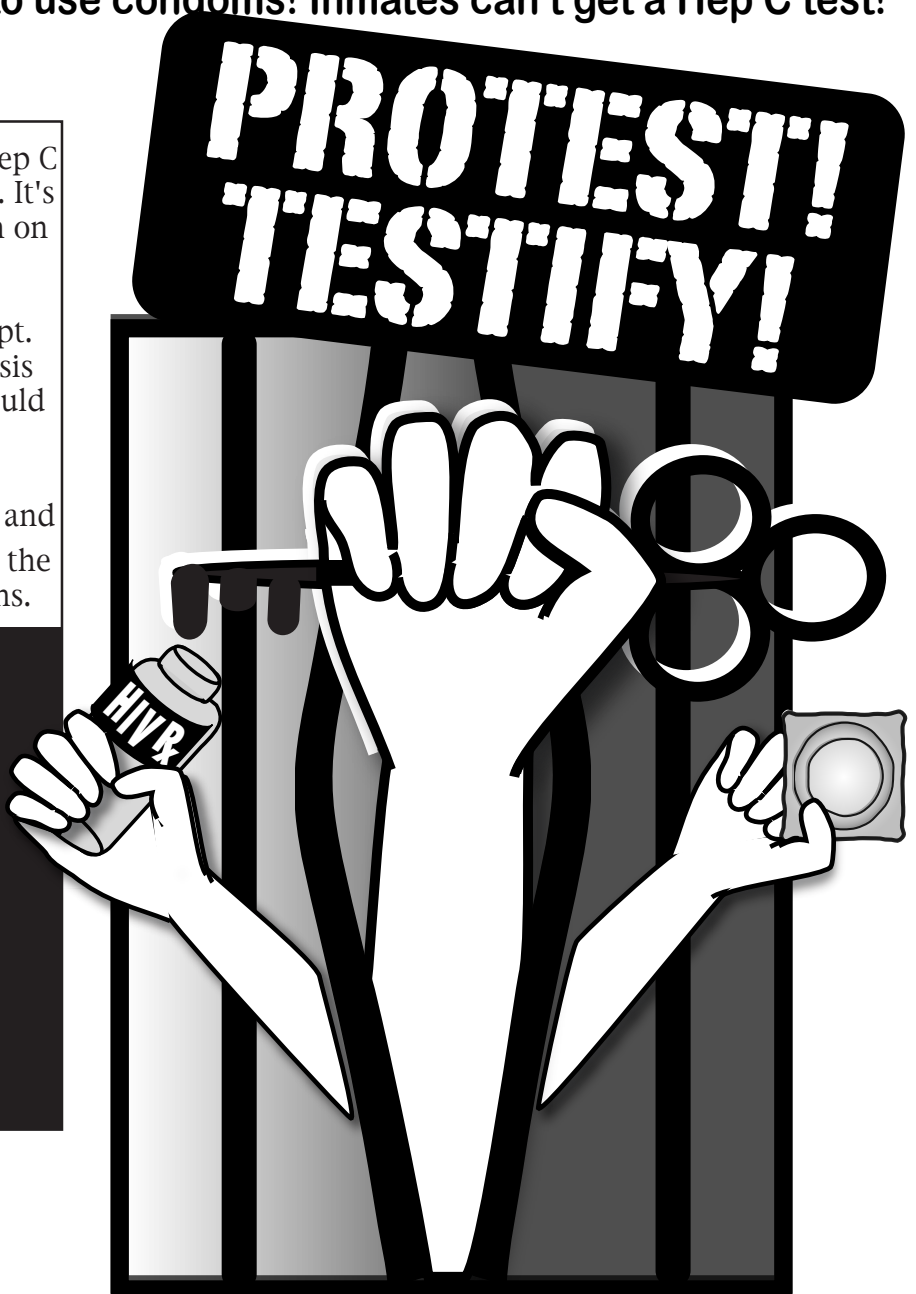

NYS DOCS provides inadequate HIV & Hep C prevention and care to people in prison. It's killing inmates, and it hurts people both on the inside and the outside.

Come out for legislation to make the Dept. of Health deal with the public health crisis in state prisons. AND legislation that would make condoms legal and available.

**DEMONSTRATE!** Then go in and **TESTIFY!** at a state hearing about the reality of DOCS, HIV and Hep C in prisons.
